QUICKSTART

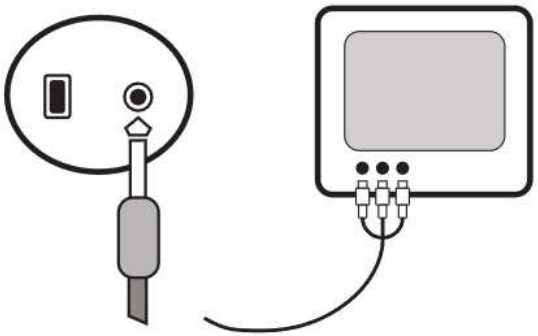

1 Karaoke Power

Use a Phillips (crosshead) or slot screwdriver to remove the battery cover. Insert four (4) AA batteries, matching positive and negative terminals as indicated. Replace the battery cover. Press the Power button and check that the Power LED illuminates. Press Power again to turn the Player off.

2 Making Connections

Connect the black Audio Video cable plug to the jack at the bottom of the Player. Connect the colored cable plugs to the input jacks of your TV set (or your VCR/DVD if your TV does not have direct video input) matching the color of the plug to the color of the input jack (white to white, red to red, yellow to yellow). The yellow jack connects to “Video In”, and the white and red jacks are left and right “Audio In”.

3 Power Up

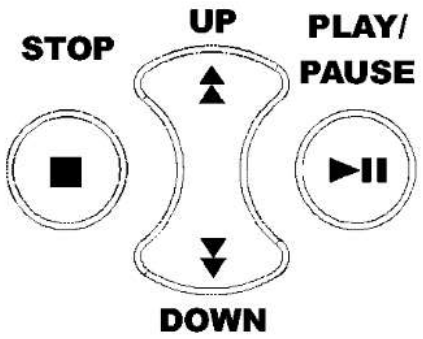

Press the Player’s Power button to turn the Player on. Turn on your TV (and VCR/DVD if used) and switch to Video/Aux. or Line. The TV will show a start-up screen, then a listing of the songs stored in your Player.

QUICKSTART CONTINUED

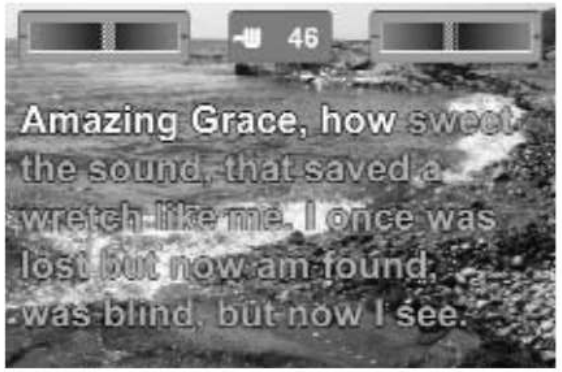

4 Song Select

The On-Key Player comes with 50 songs, shown on your TV. Use the Up/Down buttons on the Player to scroll through the list. Press the Play button to select the highlighted song.
To get more songs, see “Adding More Songs”.

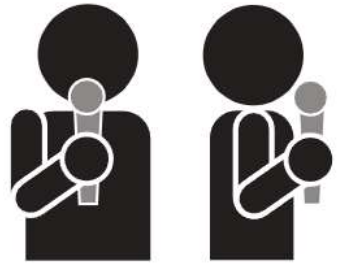

5 Song Play

After pressing Play (from Step 4) your selected song will begin to play. Lyrics are displayed on the TV and highlighted to indicate when they should be sung. You can pause the song by pressing the Play/Pause button. Pressing Stop stops the song and takes you back to the songlist.

SING LIKE A STAR

To get the best from your player, it needs to hear your voice clearly. Hold the microphone about an inch from your mouth, with the player upright, when singing. Use the thumbwheel, on the right side, to adjust the mic volume so that you can clearly hear your voice from your TV.

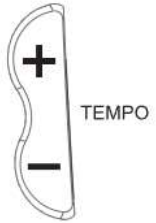

Use the Up and Down keys during a song to adjust the background music volume. Overall volume can be controlled by the volume control on your TV.

KARAOKE FEATURES

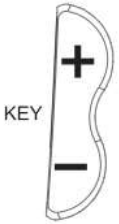

Changing Tempo

Use the Tempo +/- buttons to speed up or slow down the currently playing song. It is easier to sing songs at a slower tempo, and fun to speed up slow songs.

Changing Key

Use the Key +/- buttons to raise or lower the key of the currently playing song if it is too high or low for you to sing comfortably.

Adding Effects

These effects are described in more detail in the Spatial Effects and Vocal Effects sections of the manual.

On-Key: Press this button once and you'll select On-Key. In the On-Key mode your singing voice is automatically transformed to the correct key of the music playing. Press the button twice and you'll activate Song Scoring. The better you sing, the higher your score.

Transform: Press this button to change the sound of your voice from male to female, female to male, sound like an alien intruder or add a cool pitch-changing effect (only active when the song is playing).

Harmony: when you sing, you'll hear your own voice in two-part harmony. Harmony automatically turns on and off when the song is playing, based on information coded inside the song. Harmony is not available in all songs.

Duet: when you sing you're joined by your own voice, transformed. Choose from three different duet partners.

Spatial Effects: choose from several different echo and reverb effects. This adds resonance to your singing voice.

SPATIAL EFFECTS

Spatial effects change the “room” you’re singing in, by changing the virtual space around your voice -- the difference between singing in the shower and yodeling in the Grand Canyon. These icons are displayed in the upper right hand corner of your TV screen.

Mountain Effect
Practice your yodel.

Stadium Effect
Your fans will be doing the “wave”.

Stage Effect
No lineups, no tickets -- you’re the star!

Big Room Effect
Echoes like a huge mansion.

Shower Effect
Sing in the shower without getting wet.

SLEEP MODE

If the On-Key Player is inactive for more than two minutes, it will go into sleep mode and display a screen-saver on your TV screen. The Player will turn off after being in sleep mode for ten minutes. Press the Power button to turn the Player back on.

VOCAL EFFECTS

On-Key Pressing the On-Key button gives you the following settings:

On-Key (ON)
Our vocals coach guides your voice to match the melody.

Scoring (ON)
A numeric score is displayed next to the thumb icon. While the song is playing, the On-Key Player samples your vocal timing and pitch. The thumb goes up or down to indicate how well you are singing.

Transform Changes your voice into something you aren't. Choose from:

Female to Male

Male to Female

Alien

Techno-Voice
A cool pitch-changing effect that is only active at certain points within the song.

Duet Adds a second voice to your own. Your choices are:

Female

Male

Alien

Harmony

Creates two part harmony using only your own voice. The harmony voice turns on or off during the song. Harmony is not available in all songs.

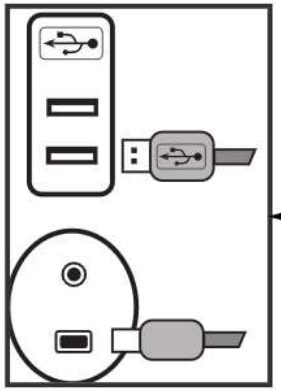

ADDING MORE SONGS

Your On-Key Karaoke Player comes with a great selection of songs, but you can also purchase your favorite songs or hot new hits from **WWW.ONKEYSONGS.COM**. You'll need a computer (which must be running either Windows 98SE, Millennium, XP or 2000), and an internet connection. A Macintosh application is also available from the website. Follow the "Initial Setup" instructions to load the required software and set up your account, and the "Three Easy Steps to Add Songs" to add more songs to your Player.

INITIAL SETUP

Follow these three steps to set up your computer and your account.
You MUST follow ALL steps in order to add more songs.

1 Load Karaoke Manager Application

Load the CD that came with your On-Key Player into your computer's CD drive and follow the installation instructions for the Karaoke Manager application, displayed on your computer screen.

2 Connections

Connect the Player to your computer using the USB cable, and turn the Player ON.

3 Start the Karaoke Manager

Double-click the Karaoke Manager icon, which should now be on your desktop.

4 Create Account

Click the "Connect to Website" button in the Karaoke Manager window. This will take you to **WWW.ONKEYSONGS.COM**. Follow the directions to create your account. You MUST have an account in order to buy songs.

TROUBLESHOOTING

We've compiled the following list of frequently asked questions and answers, to help you in case you run into difficulties. An updated list of Frequently Asked Questions can be found on the website, **WWW.ONKEYSONGS.COM**.

Whenever I go to the website I keep getting sent back to the profile page, even though I've entered my profile already.

Make sure your On-Key Karaoke Player is turned on and connected to your computer using the USB cable. Ensure that your Internet Browser (Microsoft Explorer or Netscape) has cookies enabled. To enable cookies, refer to your browser's "Help" and search for "cookies".

I've connected my Player to the input of my TV, and turned on the TV, but nothing happens.

You have to set your TV to receive Aux Input. Press the "Input" or "Aux" button of your TVs remote control until the On-Key Player screen is displayed on your TV. If your remote control does not have either of these buttons, refer to the instructions that came with your TV.

The Player has stopped working--all I get is static on my TV.

You have lost power. A low-battery icon will appear on your TV screen when the batteries need replacing. Replace the batteries, matching the plus and minus markings with the positive and negative terminals.

The volume (both music and voice) is too loud/soft.

Use the volume control on your TV to change the overall volume.

I can't hear my voice over the music/I can't hear the music over my voice.

Use the volume wheel on the Player to change the volume of your voice in relation to the music.

The Player isn't picking up my voice.

Hold the microphone closer to your mouth, so that the microphone will pick up your voice and not other sounds.

I'm getting squealing/feedback.

The Player is too close to your speakers. Move the Player away from the speakers.

Can I only purchase songs with a credit card?

Yes, **WWW.ONKEYSONGS.COM** accepts MasterCard and VISA.

I've changed my email address, can I still buy songs?

Yes. Logon to **WWW.ONKEYSONGS.COM**, edit your account and update your email address information.

I can't download the songs I've purchased!

See "Initial Setup". The Karaoke Manager application must be installed and running before you can download songs and transfer them to your player.

I'm having problems installing my Karaoke Manager.

See the Help section on the website or on the installation cd that came with your Player. ***Continued next page.....***

I've loaded the CD, but nothing happened.

Select "Explore" by right-clicking on "My Computer". Select the CD-ROM drive with the CD in it, and open the "Setup" file.

I forgot to install the software before connecting the Player to my USB.

Follow the Windows prompts to install a new USB device before beginning Step 1 of Initial Setup (page 10)
