Canni Ta

Rumbling rhinoceri! You and your traveling companion were enjoying a leisurely jungle safari when suddenly you were accosted by two savage cannibals! And now they've spirited away your lady friend and plan to cook her up for supper. You'd better rescue her quickly or your sweetie will soon be stew!

You have an inkling where they've taken her. It's just through the forest of hanging ropes, across a crocodile-infested river, up a hill through a landslide of boulders, and on to the cannibals' campsite—where your darling is suspended over a steaming cauldron of goo.

Use your controller to run and swim. Pull back on it to duck under bouncing boulders. Press either fire button to jump ropes, boulders, or cannibals, or to stab the crocodiles with your knife. You have just about eight minutes to rescue your companion. A timer counts down the time as you play.

To the Rescue!

Insert the Jungle Hunt cartridge as explained in your Colecovision owner's guide, and turn on your system. Plug a controller into jack 1 and another into jack 2 for two players.

For a one-player game, press 1, 2, or 3 for the level of difficulty you want—Easy, Medium, or Hard. For a two-player game, press 4, 5, or 6 to choose the difficulty level.

A nibal ale

You have six chances to rescue your companion at the Easy level, five chances at the Medium level, and four chances at the Hard level. Once you select the level of difficulty, the game begins automatically.

Pressing the * sign on the controller resets the game. You'll have to select the number of players and level of play over again.

Press the # sign to pause during a game. Press it again to resume play.

Strategy

- During the more advanced rounds, you'll run into some obnoxious monkeys on the ropes. They like to make your life difficult by pushing you off. Avoid their tricks by waiting till they climb out of your way—then jump.
- All the crocodiles are treacherous, but some are meaner than others. You can tell the more aggressive crocs by how fast they swim.
- When you're swimming, keep an eye on the diving meter in the upper right corner of your screen. You'll drown if your air runs out. Just rise to the surface to take a breath.
- To jump higher, move your control stick forward before leaping a boulder or cannibal.
- As you enter their camp, the cannibals lower your darling companion steadily toward the hot cauldron. You must jump to her rescue. If she's too high when you try your leap, you'll drop into the brew along with her!

SCORING

Jumping from rope to rope 100
Jumping onto a rope with a monkey on it 200

Stabbing crocodiles
Mean crocs 100
Meaner crocs 200
Meanest crocs 300

Jumping a boulder 200
Running under a boulder 50
Ducking a boulder (by pulling back on the control stick) 100

Jumping a cannibal 100

- You earn another chance to save your sweetie if you get 10,000, 20,000, or 30,000 points at the Easy, Medium, and Hard levels of play, respectively.
- You receive 30, 20, and 10 bonus points for the time left on the timer when you rescue your companion at the Easy, Medium, and Hard levels of play, respectively.
- You earn 500 points each time you enter a new section of the jungle.
- You earn an additional 500 points when you save your companion.
