"Big" George Foreman is back! After a ten-year absence from the ring, the former Heavyweight Champion is on the road to the Title again! The Goliath from Texas has won 26 out of 27 fights in the last four years, facing one young high-ranked contender after the next. The 43-year-old Foreman first took down Steve Zouski in a four-round knockout and followed with impressive knockouts over Gerry Cooney and Adilson Rodriguez, putting Foreman among the top competitors for the Championship. The 260lb. giant George has an astounding lifetime record of 71 wins and 3 losses. Foreman began his career in 1969 after winning the gold medal in the 1968 Olympics. He quickly developed a reputation as man with a devastating punch, winning 37 times without a loss, 34 by knockout, before his match with then-Heavyweight Champ Joe Frazier. In 1973, at the age of twenty-five, he took the Heavyweight Title by knockout from Frazier. He lost to Muhammad Ali in 1974. Now older and wiser, Foreman exhibits the concentration and fierce professionalism of a veteran. In his recent fight against Alex Stewart, both boxers took a severe beating but Foreman's incredible endurance held him in the fight through all ten brutal rounds against the younger boxer. Foreman was a man who came to fight and win. He did. Eighteen years after capturing the Heavyweight Belt, the gregarious boxer with an appetite for fame, glory, and food is once again in line for the Title. And it looks like nothing will stop George Foreman now!

PASSWORD

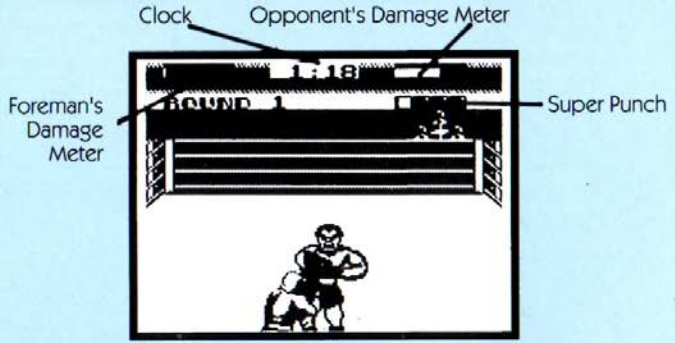

Passwords are obtained by the player when a Title Belt is won. Be sure to write them down. A Password will allow you to continue your pursuit of the Title where you left off the last time you played.

Using the SELECT button change the number in the center square until it comes to the number that you wish to place in the outer square. Press the A button to enter your choice. Now move to the next square.

Do the same for each number in your PASSWORD until ALL the outer squares are complete. When you have completed your password, press START and the game will continue where you last left off.

THE FIGHTING SCREEN

STATUS AREA

The status area containing vital information for each bout is found in the upper part of the Fighting screen.

DAMAGE METERS...Damage Meters are found in the top corners of the screen. The more damage each boxer sustains, the lower the energy in his meter gets. The meter on the left represents the amount of energy George Foreman has. The meter on the right represents your opponent's energy. Once a fighter's Damage Meter runs out, the boxer will suffer a knockdown. Watch the meters to get an indication of how well you're doing against your opponent.

TIME...On the top center of the screen, you will find the official time clock. It tells you how many minutes are left in the round. Each round is three minutes long.

ROUND...Displayed in the bottom left-hand corner of the status area is the current Round of the fight. There are only three rounds to each bout so get right to it! Don't save your best stuff for the later rounds.

SUPERPUNCHES...You will find the super-powerful Superpunches indicated by a meter in the lower right-hand corner of the status area. When you obtain a Superpunch the boxes within the meter will light up accordingly. Superpunches are earned by one of several successful combinations of punches to your various opponents.
