THE PRINCESS VANISHES!

In a far-away world, two continents float, separated by a vast swamp-land. For eons, no contact existed between the two continents because ships couldn't sail across the expanse. At last, when the historic first contact was made between the two powers, war erupted!

After long and costly fighting between the Fou Empire in the west and an alliance of countries in the east, both sides exhausted all their strength and resources. With no other alternative, the two powers agreed to an armistice.

One year later, Princess Elena vanished. She had been traveling in the east from town to town, exploring battlegrounds and visiting war veterans. Her trail vanished in a small town near the front line. Nobody knew her whereabouts!

The Eastern Alliance wanted to avoid sending a large army to the front. Such a move would be a political blunder, breaking the armistice and stirring up hostilities. It became impossible to carry out a large-scale search for Elena. Time passed ... with no sign of the princess.

Elena's sister, Princess Nina, finally makes up her mind. She leaves on a journey in search of her sister – by herself.

CHARACTERS

RYU

Personal Action: Slash

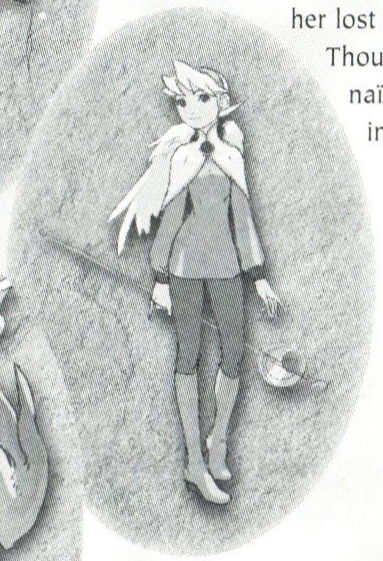

The focus of this story, Ryu meets Nina while he is lying unconscious on a street in a desert town in the eastern continent. His race and native land are unknown.

Ryu has a Dragon's Eye, which empowers him amazing abilities to transform into a dragon and summon dragons.

NINA

Personal Action: Jump

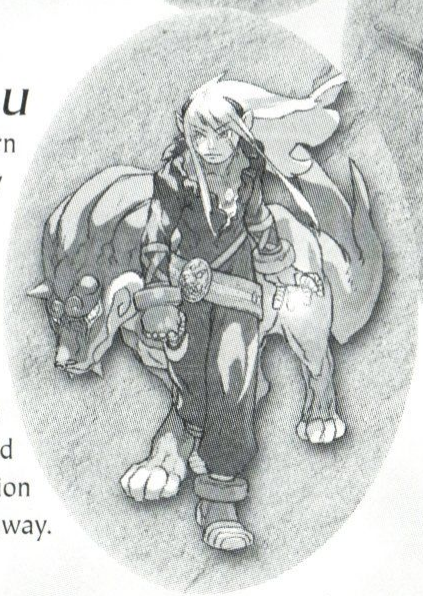

The princess of Wyndia, a town of the Fae tribe (winged folk). Nina meets Ryu on her journey to seek her lost sister Elena. Though somewhat naïve, Nina is skilled in ***Healing*** magic.

FOU-LU

Fou-lu unified the western continent single-handedly with his paranormal powers. He became the first emperor of the Fou Empire several hundred years ago. Despite his youthful look, he has mystic dignity.

It is said that he predicted his own resurrection as he passed away.

CRAY

Personal Action: Push

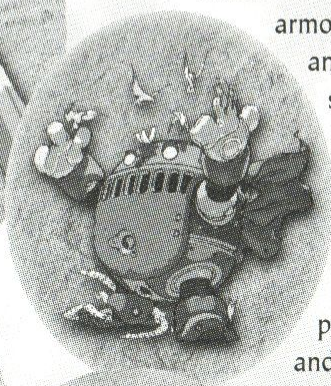

A young leader of the Woren tribe (cat people) in the eastern alliance, Cray joins Nina to search for Princess Elena, his childhood friend. He has a strong sense of responsibility and acts as the leader of the party. His high offensive and defensive abilities are very dependable.

ERSHIN

Personal Action: Ram

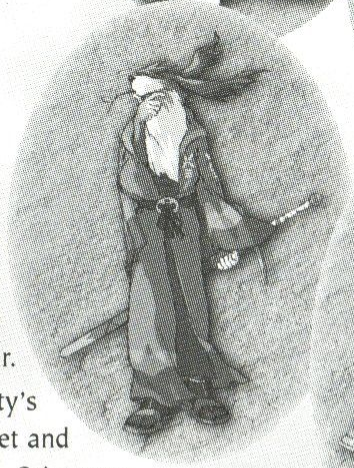

Ershin wears completely sealed armor to protect her from any kind of curse. Since she wears the armor all the time, no one knows her real face or background. She meets the party in a mysterious place polluted by a curse and decides to join them.

SCIAS

A mercenary soldier, Scias was hired by the eastern side during the war.

Scias becomes the party's watcher. He is very quiet and aloof from the world. Scias can perform a powerful double attack with his sword.

URSULA

Personal Action: Shoot

Ursula is a middle-class leader of the Fou Empire. She came to the eastern continent in search of dragons, and meets up with Ryu and his companions. Ursula was brought up in the military, and knows very little about worldly concerns. She is excellent at attacking with both magic and weapons.

- FRONT RANK CHARACTERS – Participate in attacking.
- REAR RANK CHARACTERS – Rest and are not attacked.

A character's Abnormal status (except Poison and Incapable of Fighting) can be recovered by keeping that character in the Rear Rank for three turns in sequence.

The characters' AP will recover by the characters' CP each turn.

HOW TO ATTACK

ABNORMAL STATUS DURING BATTLE

STATUS	EFFECT	CURE
POISONED	The character loses HP each turn.	***Purify***-line spells, ***Antidote***, ***Panacea***
ASLEEP	The character cannot move until the end of the battle.	***Remedy*** spell, ***Panacea***, Getting attacked, Resting in the Rear Rank for three turns
CONFUSED	The character cannot choose a target to attack.	***Remedy*** spell, ***Croc Tear***, Getting attacked
BLINDNESS	The character cannot hit an enemy as skillfully as usual.	***Remedy*** spell, ***Croc Tear***, ***Panacea***, ***Eye Drops***
MUTE	The character cannot use magic.	***Remedy*** spell, ***Croc Tear***, ***Panacea***
UNCONSCIOUS	The character cannot move until the end of the battle.	***Raise Dead***-line spells, ***Ammonia***
EGG	The character's defense becomes zero. The character gets Egg's Abilities.	After three turns, the character will return to normal and HP/AP will be fully recovered

MAGIC AND SKILLS

MAGIC can only be obtained by increasing a character's level. Magic types are dependent on the character. For example, Nina gets mainly ***Wind*** and ***Healing*** magic.

SKILLS are independent of the character's level and are obtained through earning and learning:

- A character can sometimes earn a skill from enemies by executing a Guard command.
- A character can learn a skill from a Master (see page 17).

CHANGING SKILLS

Skills can be equipped and taken off just like weapons and armor. For example, you can take off a skill from Ryu and equip it on Cray. An Aurum is required to equip skills.

Obtained skills are shared by the whole group. You can change skills in Camp. Your group cannot get the same skill more than once.

By using certain Abilities (magic and skills) in succession, you can execute a Combo. Combos significantly increase the effect of the Abilities. There are three main types of Combos: Mix Combos, Successive Combos and Additional Combos.

MIX COMBO

Each Ability has its attribute. By using Abilities with the attributes in this order; Fire → Wind → Water → Earth → Fire, etc., you can perform a Mix Combo. When a Mix Combo takes place, powerful magic with multiple attributes is performed.

SUCCESSIVE COMBO

By using Abilities of the same attribute successively, you can perform a Successive Combo. You can connect more than two Abilities of the same attribute for even greater effect.

ADDITIONAL COMBO

By using a magic or Physical skill attribute (example: Ershin's ***Risky Shot***) after a magic which causes Abnormal status (example: ***Sleep***), the second magic gets the additional effect of the Abnormal status.

- There are also other types of Combos. Try various combinations.
- A Combo can sometimes fail.

DRAGON TRANSFORMATION

Dragon Transformation is an Ability that only Ryu and Fou-lu can use. Choose ***Meditate*** from the Abilities and then choose a dragon to transform into. As you discover ***Dragon Crystals***, more types of dragons will become available to transform into.

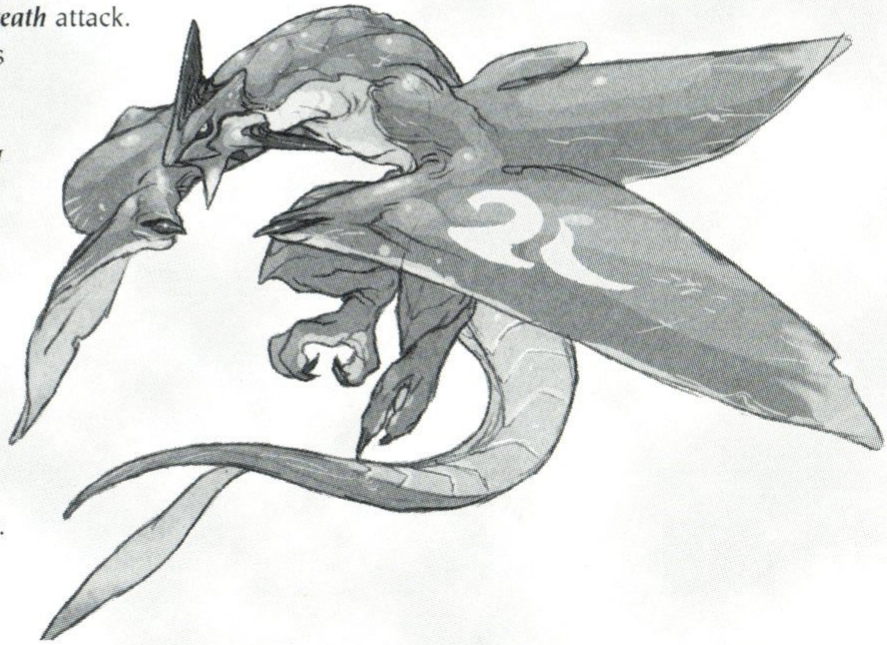

While being a dragon, the character's status increases significantly and the character can use powerful ***magic*** and ***Dragon Breath*** attack. However, a certain amount of AP is consumed every turn.

CANCELING DRAGON TRANSFORMATION

To cancel Dragon Transformation, choose ***Revert Form*** from the Abilities. Also, when the character doesn't have enough AP to maintain Dragon Transformation or his or her HP drops to zero, the Dragon Transformation ends automatically. The dragon's HP lost during a Dragon Transformation can be completely recovered by resting at an Inn. (HP is also recovered gradually in the Area Map.)

EVOCATION

Evocation is an Ability only Ryu has. Choose ***Evocation*** from the Abilities to call a dragon to help Ryu. As Ryu meets more dragons during game play, they become available for Evocation. After evoking a dragon, Ryu must rest at an Inn before he can call it a second time.

MASTERS

As your adventure progresses, you will meet characters called Masters who are highly qualified in various skills. By becoming a Master's pupil, your character can acquire the Master's secret skills.

ENTRANCE TEST

To become a Master's pupil, your character needs to meet the conditions the Master sets. Once that is accomplished, the character is allowed to be the Master's pupil. Each member of your party can become a pupil of different Masters.

BEING A PUPIL

Depending on the Master's characteristics, your character's status increases in certain ways. For example, if your character becomes a pupil of a warrior-type Master, the character's HP will grow.

ACQUIRING SECRET SKILLS

By completing a task which the Master assigns, a character can acquire the Master's secret skill. The tasks vary from simple to difficult. The more difficult the task, the higher the skill acquired.

THE MASTER'S WILL

As a pupil, a character will sometimes follow his or her Master's teaching to perform an action in battle. For example, if the Master teaches the character to protect the injured in battle, the character will do so with high probability. This is called the Master's Will.

CHANGING MASTERS

Masters who take on your characters as pupils are added to your Scroll. You can change a character's Master by choosing the ***Master*** command in the Camp Menu. It is recommended that you choose a Master with a skill or characteristics you want to improve in the character who will become the Master's pupil.

PROPER WILL

Some characters have innate Will from the beginning of the game. For example, Nina has Cheering and Ursula has Covering Fire.

FISHING

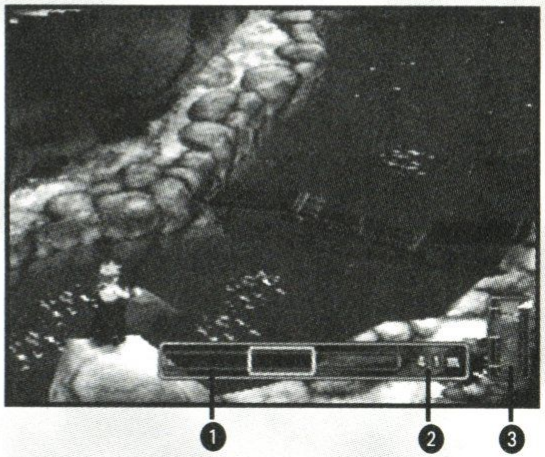

If you get a fishing rod and lure, you can enjoy fishing at various fishing spots in the world. The fish you catch can be used not only as healing items, but also traded for items at Manilo's trade shop.

FISHING WITH THE FISHING CONTROLLER

BREATH OF FIRE IV is compatible with a fishing controller (optional). To use a fishing controller, insert it into controller port 2. When a fishing controller is inserted, you cannot use the controller in controller port 1 to fish. Additionally, the fishing controller cannot control normal game play.

HOW TO FISH

1. Enter a Fishing Spot from the World Map.
2. Select a spot to fish in and press the **X** button. (A Fishing Mark blinks over available fishing locations.)
3. Press the ■ button to display a Fishing Menu. You can equip a fishing rod and lure in the menu.
4. Determine the direction to throw the lure with the Directional button or Left Analog Stick ⬅/➡. Then determine the power by pressing the **X** button.
5. When the lure is in the water, try to lure fish by moving the Directional button/Left Analog Stick ⬅/➡ or rolling the reel. When a fish bites the lure, a battle with the fish begins.

1. Tension Gauge – Tension of the fishing string.
2. Lure/Water Depth – Shows the depth of the lure in the water.
3. Fish's Vitality – Shows how much fight the fish has.

BATTLING FISH

To catch a fish that bites the lure, it is important to decrease the fish's vitality by keeping an even tension on the fishing string.

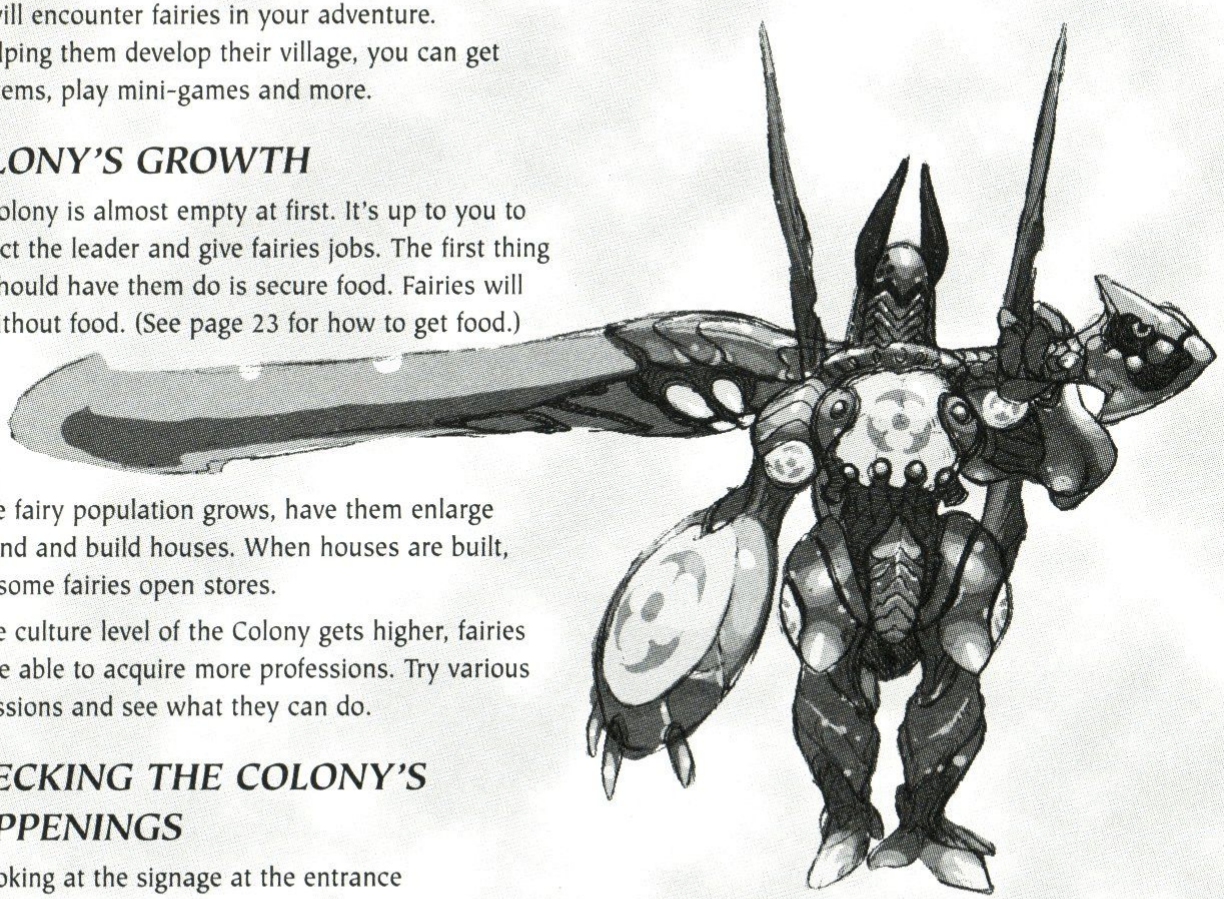

If the tension is too high or low, the fish will run. Adjust the tension gauge so it will be within a yellow frame. Increase the tension by pressing the **X** button (roll the reel) and decrease by releasing the button.

FAIRY COLONY

You will encounter fairies in your adventure. By helping them develop their village, you can get rare items, play mini-games and more.

COLONY'S GROWTH

The colony is almost empty at first. It's up to you to instruct the leader and give fairies jobs. The first thing you should have them do is secure food. Fairies will die without food. (See page 23 for how to get food.)

As the fairy population grows, have them enlarge the land and build houses. When houses are built, have some fairies open stores.

As the culture level of the Colony gets higher, fairies will be able to acquire more professions. Try various professions and see what they can do.

CHECKING THE COLONY'S HAPPENINGS

By looking at the signage at the entrance of the Colony, you can check all the happenings in the Colony since you arrived. Checking the Colony's progress frequently will help you develop the Colony more quickly.

MAX HP REDUCTION BY UNCONSCIOUSNESS

If a character is unconscious at the end of a battle, the character's Max HP is reduced by approximately 10%. The reduced Max Hp is displayed in yellow. The reduced HP can be recovered by resting at an Inn, but not in Camp.

HUNTING IN A FAIRY COLONY

You can acquire food for your party and help the colony's growth by hunting. Select the ***Hunt*** command for a fairy to hunt in various places.

MONSTERS

You will encounter various monsters in your adventure. It is important to know the weakness of each monster. Try various attacks to find out the monster's characteristics.

DEVELOPING CHARACTERS EFFICIENTLY

You can develop your characters to your liking by changing skills and Masters. Consider each character's role and balance in the party and develop your characters accordingly.

1. Learn a Skill – When you encounter a new monster, try the Guard command. The character can sometimes learn a new skill. Learn from various monsters to get as many skills as possible.
2. Become a Pupil – By becoming a pupil of a Master, the character can not only learn the Master's skills, but also increase status growth depending on the Master's characteristics. For example:
   - WARRIOR UNA is a Master of the Woren Tribe (cat people). The character who becomes her pupil will grow significantly in HP, Offense and Defense. Her Will is ***Full Power***.
   - ROGUE STOLL is a Master who lives near Synesta. The character who becomes his pupil will grow significantly in Speed. His Will is ***Filch***.
3. Changing Skills – You can change characters' skills by using the ***Skill*** command in the Camp menu. Determine the skills by considering the attack order and Combo attack you want to perform. Equipping a skill requires an Aurum.
