PREPARATION PHASE

PREPARE YOUR HAND

Draw 4 Cards.

CONFIRM YOUR HAND OR DRAW AGAIN

You can check your Hand by pressing ■ button. Use the directional buttons to scroll through the Cards.

If you don't like your Hand, discard and draw again by pressing ▲ button.

CHOOSE YOUR BATTLE DIGIMON

Choose Digimon for battle. Press ✕ button to select a highlighted Digimon Card. Start with a Level R Digimon and work your way up to Level U by accumulating DP.

ARMOR DIGIVOLVE

If your Partner has Digi-Eggs, you have the option to Armor digivolve him.

(See p. 11)

It is possible to begin with a Level C or U Digimon, but the HP and Attack Power of a Level C Digimon would be cut to half and a Level U Digimon to a quarter.

THIS ENDS THE PREPARATION PHASE. SELECT "YES" AT "FINISH PREPARATION PHASE?" TO GO TO THE NEXT PHASE.

DIGIVOLVE PHASE

Next, prepare your Battle Digimon for Digivolution. By collecting enough Digivolve Points (DP), you can digivolve your Battle Digimon to stronger Levels.

DIGIVOLVE POINTS (DP)

Press ⊗ button to select any card marked "OK." The Card you pick adds Digivolve Points to the DP Slot, and cannot be used in battle. Press ○ button to skip this step.

DIGIVOLUTION

When you collect enough DP, an "OK" icon appears over Cards you can digivolve to. Remember, even with enough DP, you can only digivolve to a Digimon of the same Specialty (Color).

DIGIVOLVE OPTION CARDS

Some Option Cards help digivolve your Battle Digimon. If there is a Digivolve Option Card in your Hand, you can use it here. Select the Digivolve Option Card and press ⊗ button. Press ○ button to skip this step.

Note: If you successfully digivolve a 1/2 power Level C Digimon to a Level U Digimon with a Digivolve Option Card, you will regain full Attack Power and HP.

THIS ENDS THE DIGIVOLVE PHASE. SELECT "YES" AT "END DIGIVOLVE PHASE?" TO GO TO BATTLE PHASE.

BATTLE PHASE

Choose an attack with ●, ▲, or ✕ button. Each Digimon uses different attacks.

● BUTTON

This is usually the strongest attack. It can be blocked sometimes, so be careful!

▲ BUTTON

While this attack is less powerful than ● button, it is easy to use and harder to block.

✕ BUTTON

This attack usually contains Special Effects like Counterattack and Crash.

(●, ▲, ✕ button) Counter	If you are attacked with this button, you can counter.
Jamming	This blocks the effect of Support Card.
Eat-up HP	This eats up your opponent's HP and adds to your own HP.
Crash	You crash into and give heavy damage to an enemy.
1st Attack	You attack first.
Specialty x 3	Triple your Attack Power against a certain Specialty.
(●, ▲, ✕ button) to 0	When your enemy uses that button, their attack goes to 0.

FOR DETAILS DURING BATTLE, PRESS THE START BUTTON AND THEN PRESS ✕ BUTTON TO SEE "SPECIAL EFFECTS INFO."

SUPPORT CARD PHASE

Support Cards enhance your Card's battle performance, but they are discarded after battle. The player attacking second chooses his Support Card first. When it is your turn to choose, select a Digimon or Option Card marked "OK" with the ✕ button. Press the ○ button to skip this step. Remember that Digimon Cards can also be used to collect DP, so choose your Support Card carefully.

If there is no Support Card you want to use in your Hand, you can take an All-or-Nothing gamble and draw from your Online Deck. You may end up with a useless Card, but it is worth a try. Select the Online Deck and press the ✕ button to draw a Support Card.

READING EACH CARD'S SUPPORT EFFECT

You can check the Support Effects of your own or your opponent's Cards by selecting Cards in either your own or your opponent's Hand. Knowing what Support Effect your opponent might choose will help you strategically select your own Support Card.

SUPPORT EFFECT / ⊗ BUTTON SPECIAL EFFECT SPEED

The arrow for each Effect shows you how quickly the Effect will activate. Faster Effects activate first.

FAST → → SLOW

If two Effects have the same speed, 1st Attack player's Effect will activate first.

WINNING

When preparations are done, the battle begins! Both players get one attack each. You win a round when your opponent's HP is reduced to 0. The first player to win 3 rounds wins the match! You will keep alternating turns until the winner is decided.

When you win a match, your Partner Cards earn Experience Points and you receive Prize Card Packs. You may receive a lot of Experience Points depending on how you battle. Your Partner Cards go up in rank when they earn enough Experience Points.

POLYGON BATTLE

If the Polygon Battle option is on, you get to see your Digimon in cool 3D Polygon Battles!
