WARNING: READ BEFORE USING YOUR PLAYSTATION® GAME CONSOLE.

A very small percentage of individuals may experience epileptic seizures when exposed to certain light patterns or flashing lights. Exposure to certain patterns or backgrounds on a television screen or while playing video games, including games played on the PlayStation game console, may induce an epileptic seizure in these individuals. Certain conditions may induce previously undetected epileptic symptoms even in persons who have no history of prior seizures or epilepsy. If you, or anyone in your family, has an epileptic condition, consult your physician prior to playing. If you experience any of the following symptoms while playing a video game – dizziness, altered vision, eye or muscle twitches, loss of awareness, disorientation, any involuntary movement, or convulsions – IMMEDIATELY discontinue use and consult your physician before resuming play.

WARNING TO OWNERS OF PROJECTION TELEVISIONS:

Do not connect your PlayStation game console to a projection TV without first consulting the user manual for your projection TV, unless it is of the LCD type. Otherwise, it may permanently damage your TV screen.

USE OF UNOFFICIAL PRODUCT:

The use of unofficial products and peripherals may damage your PlayStation game console and invalidate your console warranty.

HANDLING YOUR PLAYSTATION DISC:

- This compact disc is intended for use only with the PlayStation game console.
- Do not bend it, crush it or submerge it in liquids.
- Do not leave it in direct sunlight or near a radiator or other source of heat.
- Be sure to take an occasional rest break during extended play.
- Keep this compact disc clean. Always hold the disc by the edges and keep it in its protective case when not in use. Clean the disc with a lint-free, soft, dry cloth, wiping in straight lines from center to outer edge. Never use solvents or abrasive cleaners.

PROLOGUE ...

While Umbrella's mutant T-Virus wreaks havoc in Raccoon City ... unknown to the rest of the world, another city faces a similar fate.

Fleeing the chaos, a solitary helicopter crash-lands, adding to the confusion.

A lone survivor crawls out and desperately tries to escape the burning wreckage.

The chopper explodes ... the man is knocked unconscious.

It is night when he comes to his senses. "How much time has passed?"

He hears echoing voices of crying and moaning all around him. His mind in a haze, he starts to walk. He finds himself in a deserted back street.

"Why am I here ... ?

"My head aches ...

"I don't want to believe it ... but ... it seems I have lost my memory.

"The past is blocked in darkness ... when I try to remember it, it slips away like fog.

"Is this a battlefield?

"No ... it is just an old town. But something is wrong. I sense something really dangerous in this town.

"I have to get out of here. I may be meeting someone later on. Is he an enemy ... or a friend?

"Am I doing right or wrong? Am I good or bad? Am I really human?

"I don't know anything ...

"I'm only sure of one thing. All I can rely on is this gun. This gun will guide me ...

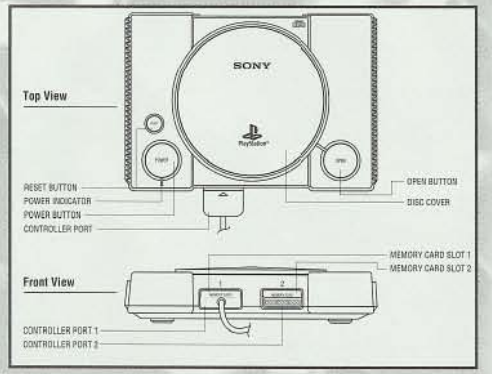

"It is my only protection ...

"I will survive ...."

CONTINUE AND GAME OVER

Your character takes damage when attacked. His condition is displayed in the electrocardiogram at the bottom right of the gameplay screen. As your character takes damage, his health decreases from FINE to DANGER. When he takes the maximum amount of damage, he is defeated. Then the Continue screen appears. You have a limited number of continues.

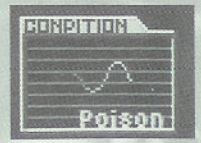

If you don't (or can't) continue, your game is over. When this happens, you can save your items for your next game (see page 14).

Zero or very little damage.

Severe damage.

When poisoned, your character gradually loses vitality until cured or defeated.

SAVING GAME DATA

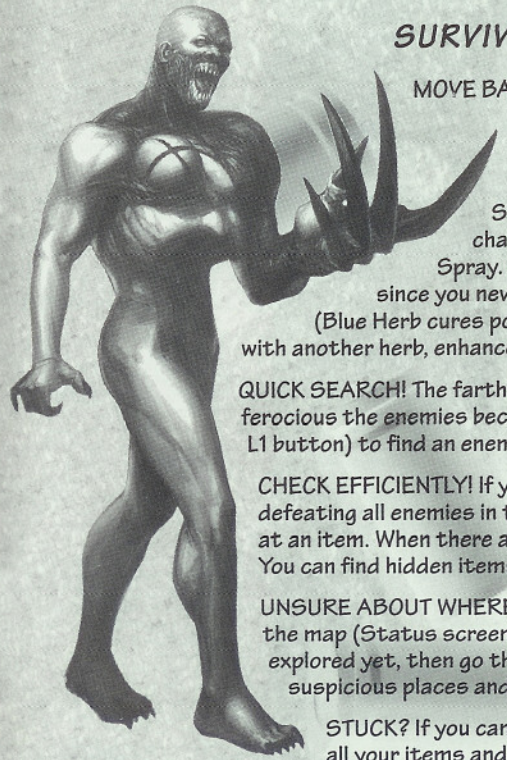

When your character is defeated and the game ends, you can save your items to a Memory Card. Select YES to save and follow the on-screen instructions.

To restart your saved game data, select LOAD GAME at the Title screen and then select the saved game data.

Important: Saving game data requires an optional Memory Card. This game uses 1 block to save game data. While saving or loading, do not turn off or reset your PlayStation game console or disconnect a Memory Card. Doing so may corrupt or lose game data on the card.

SURVIVE!

MOVE BACKWARD! You can't shoot while reloading bullets. Moving backward can keep you out of enemies' reach.

STAY HEALTHY! You can heal your character with Green Herb or First Aid Spray. Always keep your character healed, since you never know when he'll be attacked. (Blue Herb cures poison. Red Herb, when combined with another herb, enhances the effect of the herb.)

QUICK SEARCH! The farther you get into the game, the more ferocious the enemies become. Use "quick search" (default L1 button) to find an enemy before it attacks you.

CHECK EFFICIENTLY! If you use "quick search" after defeating all enemies in the area, your character will look at an item. When there are no items, he will look at a door. You can find hidden items or doors this way.

UNSURE ABOUT WHERE TO GO? If you get lost, check the map (Status screen) and find out where you haven't explored yet, then go there. Also, move nearer to suspicious places and reread files you have acquired.

STUCK? If you can't solve a puzzle, try checking all your items and files. You may find an unexpected clue.
