TIME TO STEAL SOME SHEEP!

Welcome to the woolly world of the Looney Tunes™ Sheep Raider™ game!

You are Ralph Wolf™, professional sheep thief, and you've been invited to participate on a silly TV gameshow to do what you like best...steal sheep!

Get it right and you'll be showered with prizes — and all those sheep will keep you in lamb chops for years. Get it wrong and that hairy hound Sam Sheep-dog™ will give you a big fat paw-powered punching.

Remember that in order to complete your mission and capture those sheep you'll need to be at your best! Sly, stealthy gameplay is the way to capture the plump, silly sheep out from under the watchful eye of Sam Sheep-dog. Do you stand a chance?

Ewe bet!

MEET THE CAST

There are loads of crazy characters in this Sheep Raider game, most of them familiar faces who will be able to help you complete your mission.

Ralph Wolf

For years Ralph Wolf has been on the wrong side of Sam's fist. Your craftiest wolf abilities will be tested in order to capture those defenseless little sheep. But maybe this time it'll be different. He's the cousin of that other famous loser, Wile E. Coyote™, and just like him, he never ever gives up. He's been flattened, blown up, dropped and scraped up, and still he comes back for more...

Sam Sheep-dog

No one's seen his eyes since he was a puppy, but somehow he always manages to spot Ralph Wolf before he steals one of his sheep. He's cool, calm and collected, standing watch over his furry flock with all his senses on full alert. He doesn't expect even one sheep to be nabbed while he's on duty, so it's going to take all of Ralph's wolf skills to grab the entire flock!

Sheep

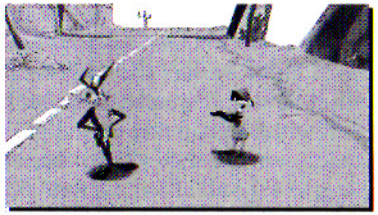

They're slowish, sheepish, and a bit thick. They're happy to munch grass all day under the watchful gaze of Sam Sheep-dog, and they won't even run if they spot Ralph Wolf coming at them with hunger in his eyes. In fact, they can't see very far at all, so if you're thinking of luring them away from their woolly mates, you might need to try and appeal to their sense of smell. And remember, they're also very partial to a nice bit of lettuce.

PLAYING SHEEP RAIDER

Once the intro movie is over, select START GAME to begin a new game. You are now ready to enter the crazy world of sheep stealing, but first, you'll need to do a little training.

TRAINING ZONE

You wouldn't expect a world-class sheep thief to hit the heights without a little limbering up first, would you?

That's why Daffy Duck™ will guide all new players through the ACME™ Training Zone before the real game begins, so you can get the hang of some of the basics including walking, running and using the camera to get the best view of what's going on.

Make sure you pay attention, or you could find Sam Sheep-dog feeding you a knuckle sandwich sooner than you expected.

Once you've completed the Training Zone, you'll be ready to get into the game. But don't worry, there'll be plenty of help along the way when you encounter new objects or when new skills are needed.

THE TV STUDIO

When you've finished the Training Zone, you'll return to the TV studio where you can enter the next level. To reach it, go through the open door and press the ⊗ button when prompted.

When you complete a level, a door will appear in the studio which takes you back to that level so you can play it again in the future.

CONTROLLING RALPH WOLF

Walking

Use the directional buttons to walk around the landscape. This is fine if you don't need to get anywhere in a hurry, or you don't need to be especially quiet. If Sam Sheep-dog's on patrol though, you might want to do things a little more stealthily...

Walking Stealthily

There will be plenty of times when normal walking is just too noisy, so to creep around the place like the sneaky wolf you are, just hold down the R1 button while you walk.

Running

It's no good just wandering around at a leisurely pace all the time. When you need to pick up speed, repeatedly tap the ◎ button as you press the directional buttons. When you're running, you can zoom across crevices and gaps, but don't stop tapping that ◎ button, or you'll end up as wolf pulp.

Jumping

A single press of the □ button will make you leap up in the air. Get a little higher by pressing the □ button again at the top of your jump. This will give you a double jump. Combine jumps with the directional buttons to direct yourself.

CONTROLLING THE CAMERA

Rotating the Camera

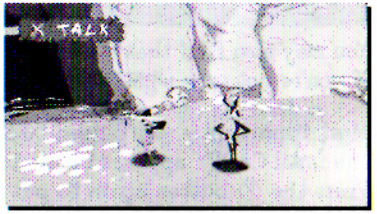

In a game of stealth like this one, you'll often need to look around the landscape to decide on your best course of action. Rotate the camera left or right using the L2 button and R2 button respectively.

Wolf's-Eye View

To see exactly what Ralph is seeing, hold down the △ button while using the directional buttons to scan the scene.

TALKING TO CHARACTERS

As a crafty wolf on a mission, you might feel like just storming through the levels, stealing all the sheep, and heading off into the sunset with your prize. But you won't get very far if you don't stop to be sociable every now and again.

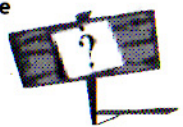

There are characters out there who can give you useful information if only you'll stop and chat. To talk to them go up to them until TALK appears in the top left corner, then press the ⊗ button. If you press the ⊗ button again, you can scroll up or down through the speech using the directional buttons. Press the ⊗ button for a third time, and you will skip the speech completely. (It's not wise to do this unless you've already heard everything they've got to say).

Sometimes, characters will ask you questions. Use the directional buttons to select your answer, then press the ⊗ button to confirm.

READING SIGNPOSTS

Signposts with question marks are dotted around the place and may or may not tell you something useful. The only way of knowing is to go up to them until READ appears in the top left corner, then press the ⊗ button.

INTERACTING WITH OBJECTS

There are all kinds of objects in the game which you can use to carry out your sheep thievery. You can find out precisely how to use individual objects by referring to the Inventory (read the section called USING THE INVENTORY for more information), but in most cases, you will need to press the ⊗ button to pick up and use an object.

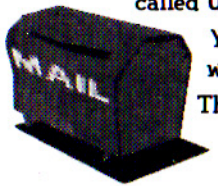

You may also find that a nearby character will help you to use an object if you're not sure what to do.

Most importantly, you'll need to know how to carry sheep. Just walk up to one until CARRY appears in the top left corner, then press the ⊗ button. Press the ⊗ button again to put the sheep down.

ORDERING ITEMS

Certain interactive items have to be ordered from a letterbox (mailbox).

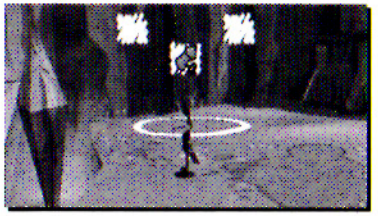

You can find the location of letterboxes on the map (read the section called USING THE INVENTORY for more information).

You will need to walk up to one and press the ⊗ button when ORDER appears in the top left corner.

The item connected to that letterbox will appear somewhere on the landscape ready for you to go and pick up.

USING THE INVENTORY MENU

The Inventory Menu contains all the items you have collected ready for use. To view the contents, hold down the L1 button and use the left and right directional buttons to scroll through them.

Placing Items in the Inventory

Pick up an item by standing in front of it and pressing the ⊗ button when TAKE appears in the top left corner. The item will automatically be placed in the Inventory.

Taking Items from the Inventory

When you want to make use of an item you have already collected, hold the L1 button and use the left and right directional buttons to highlight the item required. When it's highlighted above your head, release the L1 button.

Using the Inventory

To see the Inventory, press the SELECT button.

It shows you all the objects available on a level along with a map marking important items and locations.

Object List

Use the up and down directional buttons to scroll through this list of available objects. Remember that before they can be used, you need to order them from the appropriate letterbox. To find out which letterbox you need, highlight the object and a red circle will mark the correct one.

Blue and white objects are ones available on the level which have not yet been collected.

Colored objects are the ones that have been picked up and are ready for use.

Map

This is a plan of the current level.

Help

Highlight an object in the Object List, then press the ⊗ button to highlight the Help icon.
Press the ⊗ button to read information about the object.

Use

Highlight an object in the Object List, then press the ⊗ button and use the directional buttons to highlight the Use icon. Press the ⊗ button to return to the game and use the object.

Combine

Sometimes, you will want to combine one object with another to get the effect you need.
Highlight an object in the Object List, then press the ⊗ button and use the directional buttons to highlight the Combine icon.
Press the ⊗ button, then highlight the second object, and press the ⊗ button again.
After combining the two objects in this way, return to the game using the EXIT icon, by selecting and confirming the combination with the ⊗ button, or by pressing the SELECT button.

SAM SHEEP-DOG

You might consider yourself the coolest, calmest, craftiest wolf that ever prowled the earth, but Sam Sheep-dog is out to prove otherwise. He watches over his flock of sheep very carefully, and if he spots you trying to steal one, you're dog meat.

When you get close to the flock, a Sam icon will appear in the top right corner of the game screen.

The Sam icon rotates, showing the direction in which he is looking.

The background color indicates your status:

Green

Sam won't be able to see you or hear you, so you can walk normally.

Orange

Sam will be able to see you if he looks directly at you, and he will hear you walking unless you walk stealthily by holding the R1 button.

Red

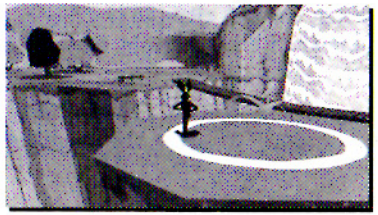

Sam has seen you! You better escape fast or he'll be using you as a punching bag.

There are ways of hiding from Sam even when you're right under his moist sheepdog nose, but you'll have to play to find out what they are...

COMPLETING LEVELS

The aim of every mission is to steal a sheep from Sam Sheep-dog's flock, and get it as far as the goal at the end of the level. The goal is a large white circle.

You will need to get the sheep into the circle in order to finish the level.

SAVING AND LOADING

When the Autosave function is on, your progress will automatically be saved as you complete each level if you have a MEMORY CARD with at least one free block correctly inserted into your console. Next time you start the game, make sure the same MEMORY CARD is inserted, and you will be taken straight to the level you've reached unless you select START NEW GAME.

The Autosave function can be turned off by going to the Options Menu.

PAUSE MENU

Press the START button during the game to pause the action and bring up the Pause Menu.

To customize the configuration, highlight the function you want to change, press the ⊗ button, then press your preferred Controller button.
