WARNING: READ BEFORE USING YOUR PLAYSTATION® GAME CONSOLE.

A very small percentage of individuals may experience epileptic seizures when exposed to certain light patterns or flashing lights. Exposure to certain patterns or backgrounds on a television screen or while playing video games, including games played on the PlayStation game console, may induce an epileptic seizure in these individuals. Certain conditions may induce previously undetected epileptic symptoms even in persons who have no history of prior seizures or epilepsy. If you, or anyone in your family, has an epileptic condition, consult your physician prior to playing. If you experience any of the following symptoms while playing a video game – dizziness, altered vision, eye or muscle twitches, loss of awareness, disorientation, any involuntary movement, or convulsions – IMMEDIATELY discontinue use and consult your physician before resuming play.

WARNING TO OWNERS OF PROJECTION TELEVISIONS:

Do not connect your PlayStation game console to a projection TV without first consulting the user manual for your projection TV, unless it is of the LCD type. Otherwise, it may permanently damage your TV screen.

USE OF UNOFFICIAL PRODUCT:

The use of unofficial products and peripherals may damage your PlayStation game console and invalidate your console warranty.

HANDLING YOUR PLAYSTATION DISC:

- This compact disc is intended for use only with the PlayStation game console.
- Do not bend it, crush it or submerge it in liquids
- Do not leave it in direct sunlight or near a radiator or other source of heat.
- Be sure to take an occasional rest break during extended play.
- Keep this compact disc clean. Always hold the disc by the edges and keep it in its protective case when not in use. Clean the disc with a lint-free, soft, dry cloth, wiping in straight lines from center to outer edge. Never use solvents or abrasive cleaners.

GETTING STARTED

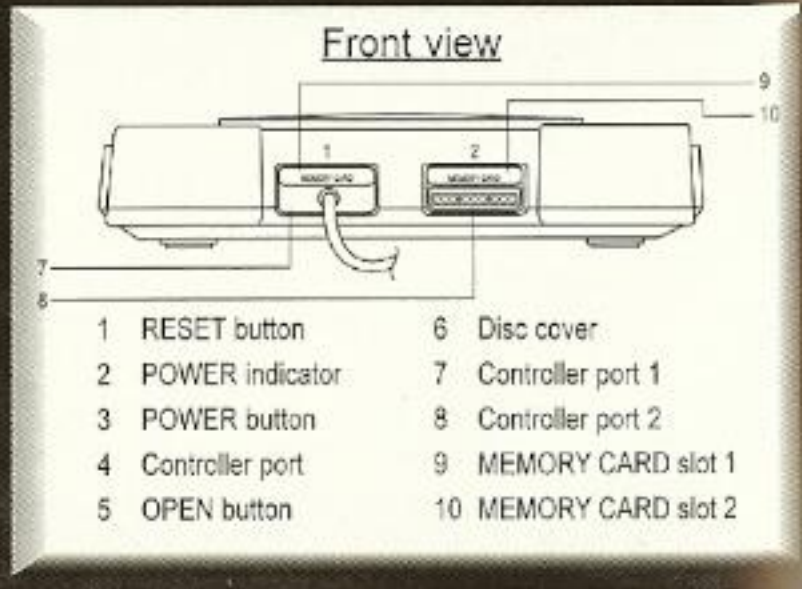

INSTALLATION

Set up your PlayStation® game console according to the instructions in its Instruction Manual. Make sure the power is off before inserting or removing a disc. Insert the Spec Ops: Covert Assault disc and close the Disc Cover. Insert the game Controller and turn on the PlayStation® game console. Follow the on-screen instructions to start the game.

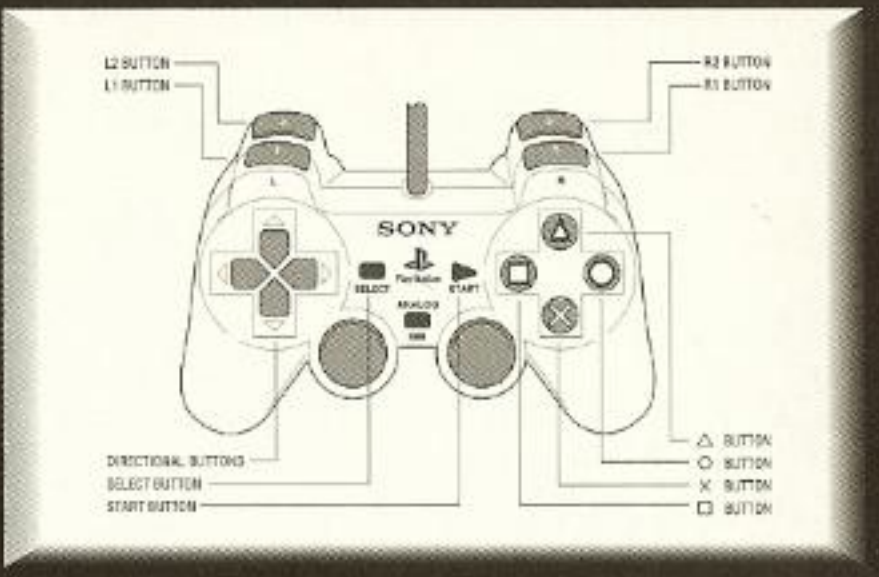

If you wish to save your game you will need a MEMORY CARD (Spec Ops: Covert Assault only supports MEMORY CARD slot 1), and if you would like to play a two player game then ensure that a second Controller is inserted into Controller Port 2. Spec Ops: Covert Assault saved Options data is auto loaded on boot-up.

It is advised that you do not insert or remove peripherals or MEMORY CARDS once the power is on. Make sure there are enough free blocks on your MEMORY CARD before commencing play.

THE RANGER CREED

Recognizing that I volunteered as a Ranger, fully knowing the hazards of my chosen profession I will always endeavor to uphold the prestige, honor, and high "esprit de corps" of the Rangers.

Acknowledging the fact that a Ranger is a more elite soldier who arrives at the cutting edge of battle by land, sea, or air, I accept the fact that as a Ranger my country expects me to move further, faster and fight harder than any other soldier.

Never shall I fail my comrades. I will always keep myself mentally alert, physically strong and morally straight and I will shoulder more than my share of the task whatever it may be. One Hundred-percent and then some.

Gallantly will I show the world that I am a specially selected and well trained soldier. My courtesy to superior officers, neatness of dress and care of equipment shall set the example for others to follow.

Energetically will I meet the enemies of my country. I shall defeat them on the field of battle for I am better trained and will fight with all my might. Surrender is not a Ranger word. I will never leave a fallen comrade to fall into the hands of the enemy and under no circumstances will I ever embarrass my country.

Readily will I display the intestinal fortitude required to fight on to the Ranger objective and complete the mission, though I be the lone survivor.

MAIN MENU SCREEN

Game Options
Modify Spec Ops:Covert Assault features and settings – see 'Options' section for details.

OPTIONS

Difficulty	
Upon starting a new game, you will need to choose the difficulty level. The options are:	
Private	Easy
Corporal	Medium
Sergeant	Difficult

Features that change depending on the level of difficulty include:

- Enemy accuracy is increased at higher difficulty levels.
- Enemy armor is increased at higher difficulty levels.
- Less time is alloted for the mission on harder difficulty settings.
- Hardest difficulty only gives you 5 Rangers to complete ALL missions.

Music Volume

Adjust Music Volume via the ← and → directional buttons.

SFX Volume

Adjust SFX Volume via the ← and → directional buttons.

CONTROLLER CONFIGURATIONS

Players can select from a choice of 4 different configurations.
The options are:

Configuration	✖ Button	● Button	▲ Button	■ Button
A	fire	equip item	swap Ranger	grenades/explosives
B	grenade/explosives	fire	equip items	swap Ranger
C	swap Ranger	grenades/explosives	fire	equip item

Player 2 Vibration On/Off

Toggles the DUALSHOCK™ analog controller vibration function on and off for player 2.

Set Screen Position

Adjust the screen position using the directional buttons.

Accept

Accepts the changes made to the options and returns to the Main Menu.

HOW TO PLAY

ENTERING YOUR NAME

For both one and two player games, you can enter a name on the sign in screen.
This allows Player One and Player Two to enter a name of up to eight letters.

SELECTING A MISSION

After choosing the level of difficulty, you can proceed to the Select Mission screen.
If you have begun the game for the first time, you will commence with Mission One: Phase One. You can proceed on to Mission One: Phase Two and so on, when you successfully complete Phase One. Completing all the phases of a mission allows you to start the next mission.

Once you have successfully completed a phase or a mission, you may then go back and replay that phase or mission again.

MISSION BRIEFING

This screen describes the scenario behind each mission, and the phases involved in completing the mission. The player can play other missions so long as they have unlocked them previously by advancing through the mission briefings.

PHASE OBJECTIVES

After selecting a mission, you will be taken to the Phase Briefing screen.
This will show you what you need to know to complete the phases.
A satellite download to the Ranger team updates a computer between mission phases.
This download contains the intelligence information you need to succeed in your mission.
Image and text data of all crucial Phase Objectives is displayed.

SELECTING RANGERS AND MODIFYING LOADOUTS

When you have absorbed the information in the briefing, it is time to select an appropriate team of two Rangers, from the group of five.
Each of the Rangers has a special skill with a particular weapon. This is something to bear in mind when selecting your men for a mission. The five Ranger types are:

1. MACHINE GUNNER
2. GRENADIER
3. RECON/SNIPER
4. CLOSE QUARTER
5. RIFLEMAN

After selecting both Rangers, you can modify their loadout (weapons and equipment), by going to the loadout screen. Here you can add, subtract, or swap certain items of the Rangers inventory.
There is a limit to the number of items and weight that a Ranger can carry.

SELECTING RANGERS IN A TWO PLAYER GAME

Selecting Rangers in the two player game is very similar to the one player game.
First Player One (or whatever name has been entered as Player One) selects their Ranger and edits the loadout if desired. When done, control is handed to Player Two, who can select a Ranger and modify his loadout as wished. Control then returns to Player One who can start the mission by selecting the pilot.

RANGER FATIGUE

Your Rangers are only human, and too much combat will burn them out. When selecting Rangers there will be an indication of the Ranger's fatigue. The greater the fatigue the less health the Ranger has at the start of a mission.

INTERFACE

INVENTORY USE

To access the inventory you must press and hold the R1 button. Pressing the left or right directional buttons will move between weapon, explosives and equipment sections. Pressing the up and down directional buttons will cycle through the equipment available to the Ranger in the current inventory section. When the R1 button is released, the inventory changes are implemented.

SATCOM RADIO

Every Ranger carries a SATCOM Radio in his inventory.
The radio communicates the latest information on the Ranger's current mission objective.

SATCHEL CHARGES

These are highly explosive charges, which are set to detonate in a user-determined time. After placing the charge, set the timer for detonation at a value between 5 and 20 seconds using the R2 and L2 buttons. Times more than 5 seconds but less than 10 seconds are yellow in color. Times greater than 10 seconds are green.

CLAYMORE & CLACKER

The Claymore is a fragmentation antipersonnel mine. After placing the Claymore, use the Clacker as the remote detonator to blow the mine when the enemy is within the range of the mine.
Note: The Clacker has a limited range.

GRENADES

When throwing grenades, note how far you throw is dependent on your posture. You will not be able to throw as far in the crouched position as when standing.

Fragmentation Grenade	*These are typical anti-personnel grenades. They have a medium explosion and a 3m kill-radius against unarmored enemies.*
HE Grenade	*These are specialized high explosive grenades. They have a large explosion and a 7m kill-radius against armored enemies and equipment.*
Smoke Grenade	*Use this to temporarily blind the enemy.*
White Phosphorous Grenade	*A powerful explosive and incendiary grenade.*
M203 Grenade	*These grenades are launched from a rifle-mounted grenade launcher. They are high explosive, point-impact grenades with a small, 1m kill-radius.*

MED. KITS

Med. kits are used to restore health. Do not use a Med. Kit if your health is already high, as they can only be used once, and will only take your health to a maximum of 100%.

POSTURE

There are three postures - stand, crouch and lie. Each posture influences your accuracy and vulnerability to enemy fire. Enemy soldiers will find it harder to hit you when crouched, but you will find you cannot throw grenades as far.

To move between the postures, the R2 button should be held, and either the up or down directional button pressed. Pressing the R2 button and the down directional button will move the Ranger from standing to crouching. Press the combination again and he will lie down. To move back to crouch mode the R2 button and up directional button should be pressed.

HOW TO USE YOUR RANGER BUDDY

Your Ranger Buddy is extremely important to you. Using him will help you achieve your mission objectives, and survive.

Ranger Buddy Commands

Fire 'em Up!	L2 + ●	This command allows your Buddy to target and open fire on his closest enemy. This provides the best attack formation when the enemy is to the front of either Ranger.
Follow Me!	L2 + ■	This command tells your Buddy to stay close to you. When you stop, he stops. When you are on the move, your Buddy is close behind.
Hold Up!	L2 + ✖	This mode tells your Buddy to stand his ground. He will not move until instructed to do so but will fire at enemies if they get within a certain radius of him.
Move Up!	L2 + ▲	This mode tells your Buddy to immediately advance forward of you a certain distance, while you provide cover.

You can switch back and forth between Ranger One and Ranger Two using the ▲ button. If you switch postures during gameplay, your Buddy will adopt the same posture. Using both Rangers throughout your mission objectives is optimal for gameplay. It not only allows you to use different weapons and inventory items, but also lets you have more control over how you navigate and interact with the enemy.

The default Buddy command when you enter a level is "Follow Me." When you switch Rangers, your old Ranger (now your Buddy) will remain in the "Follow Me" mode until you give him new orders.
NOTE – Ranger Buddy commands are only available in the single player game, as your real buddy will be controlling Ranger Two.

GAME MESSAGES

Game messages will appear periodically in the top center of your screen where the radio messages also appear. These messages give you updates and hints as to what to do next.

PAUSING THE GAME

Hit the ▶ button to pause the game and show the following in-game options:

Resume	*Lets you continue playing the game.*
Music volume	*Allows you to adjust the music effects volume.*
SFX Volume	*Allows you to adjust the sound effects volume.*
Vibration *(Player who paused the game)*	*You can turn the DUALSHOCK™ analog controller vibration on or off.*
Abort Mission	*This quits the current mission and returns you to the mission briefing screen.*
Quit Game	*This aborts the whole game and returns you to the title screen.*

AWARD SCREEN

You will receive an update screen after completion of each phase of a mission, allowing you to judge your progress.
After completing all phases of a mission you will receive the overall mission score.

Your score is based on:

Enemies KIA (killed in action)
Rangers KIA
Marksmanship
Completion Time
Mission Rating

Depending on just how good you are, here's what you could win:

No commendations	*You need to go back to Ranger School.*
The Army Achievement Medal	*Don't be afraid, you're trained to kill the enemy.*
The Army Commendation Medal	*Not bad.*
The Meritorious Service Medal	*You're learning.*
The Bronze Star	*You're starting to get pretty good.*
The Silver Star	*You must be using the Ranger buddy pretty well by now.*
The Distinguished Service Cross	*Wow, you are now a skilled Ranger!*
The Medal of Honor	*You are awesome! Perhaps you should think about really joining the U.S. Army Rangers if you haven't already.*

SAVING A GAME

You have the opportunity to save your game after completion of a phase.
The Phase Result screen is displayed once you have completed a phase and continuing on from this screen will take you to the Save Game screen, where you have the choice to save or not, if you choose to save then just follow the on screen instructions.

WEAPONS/ SCOPES

WEAPONS

Binos *Increases the view distance up to 8x the normal.*

6x Sniper Scope *Increases the view distance 6 times the normal with a targeting device.*

ENVIRONMENT AND ENEMY PICKUPS

Some items can be picked up off of enemies while some are environmental only.
All will aid you in completing your objectives.

Ammo Box *Contains a certain number of clips.*

Frag Grenade *These are typical anti-personnel grenades. They have a medium explosion and a 3m kill-radius against unarmored enemies.*

HE Grenade *These are specialized high explosive grenades. They have a large explosion and a 7m kill-radius against armored enemies and equipment.*

Smoke Grenade *Use this to cover your movement from the enemy.*

White Phosphorous Grenade *Throw and seek cover because this one is powerful.*

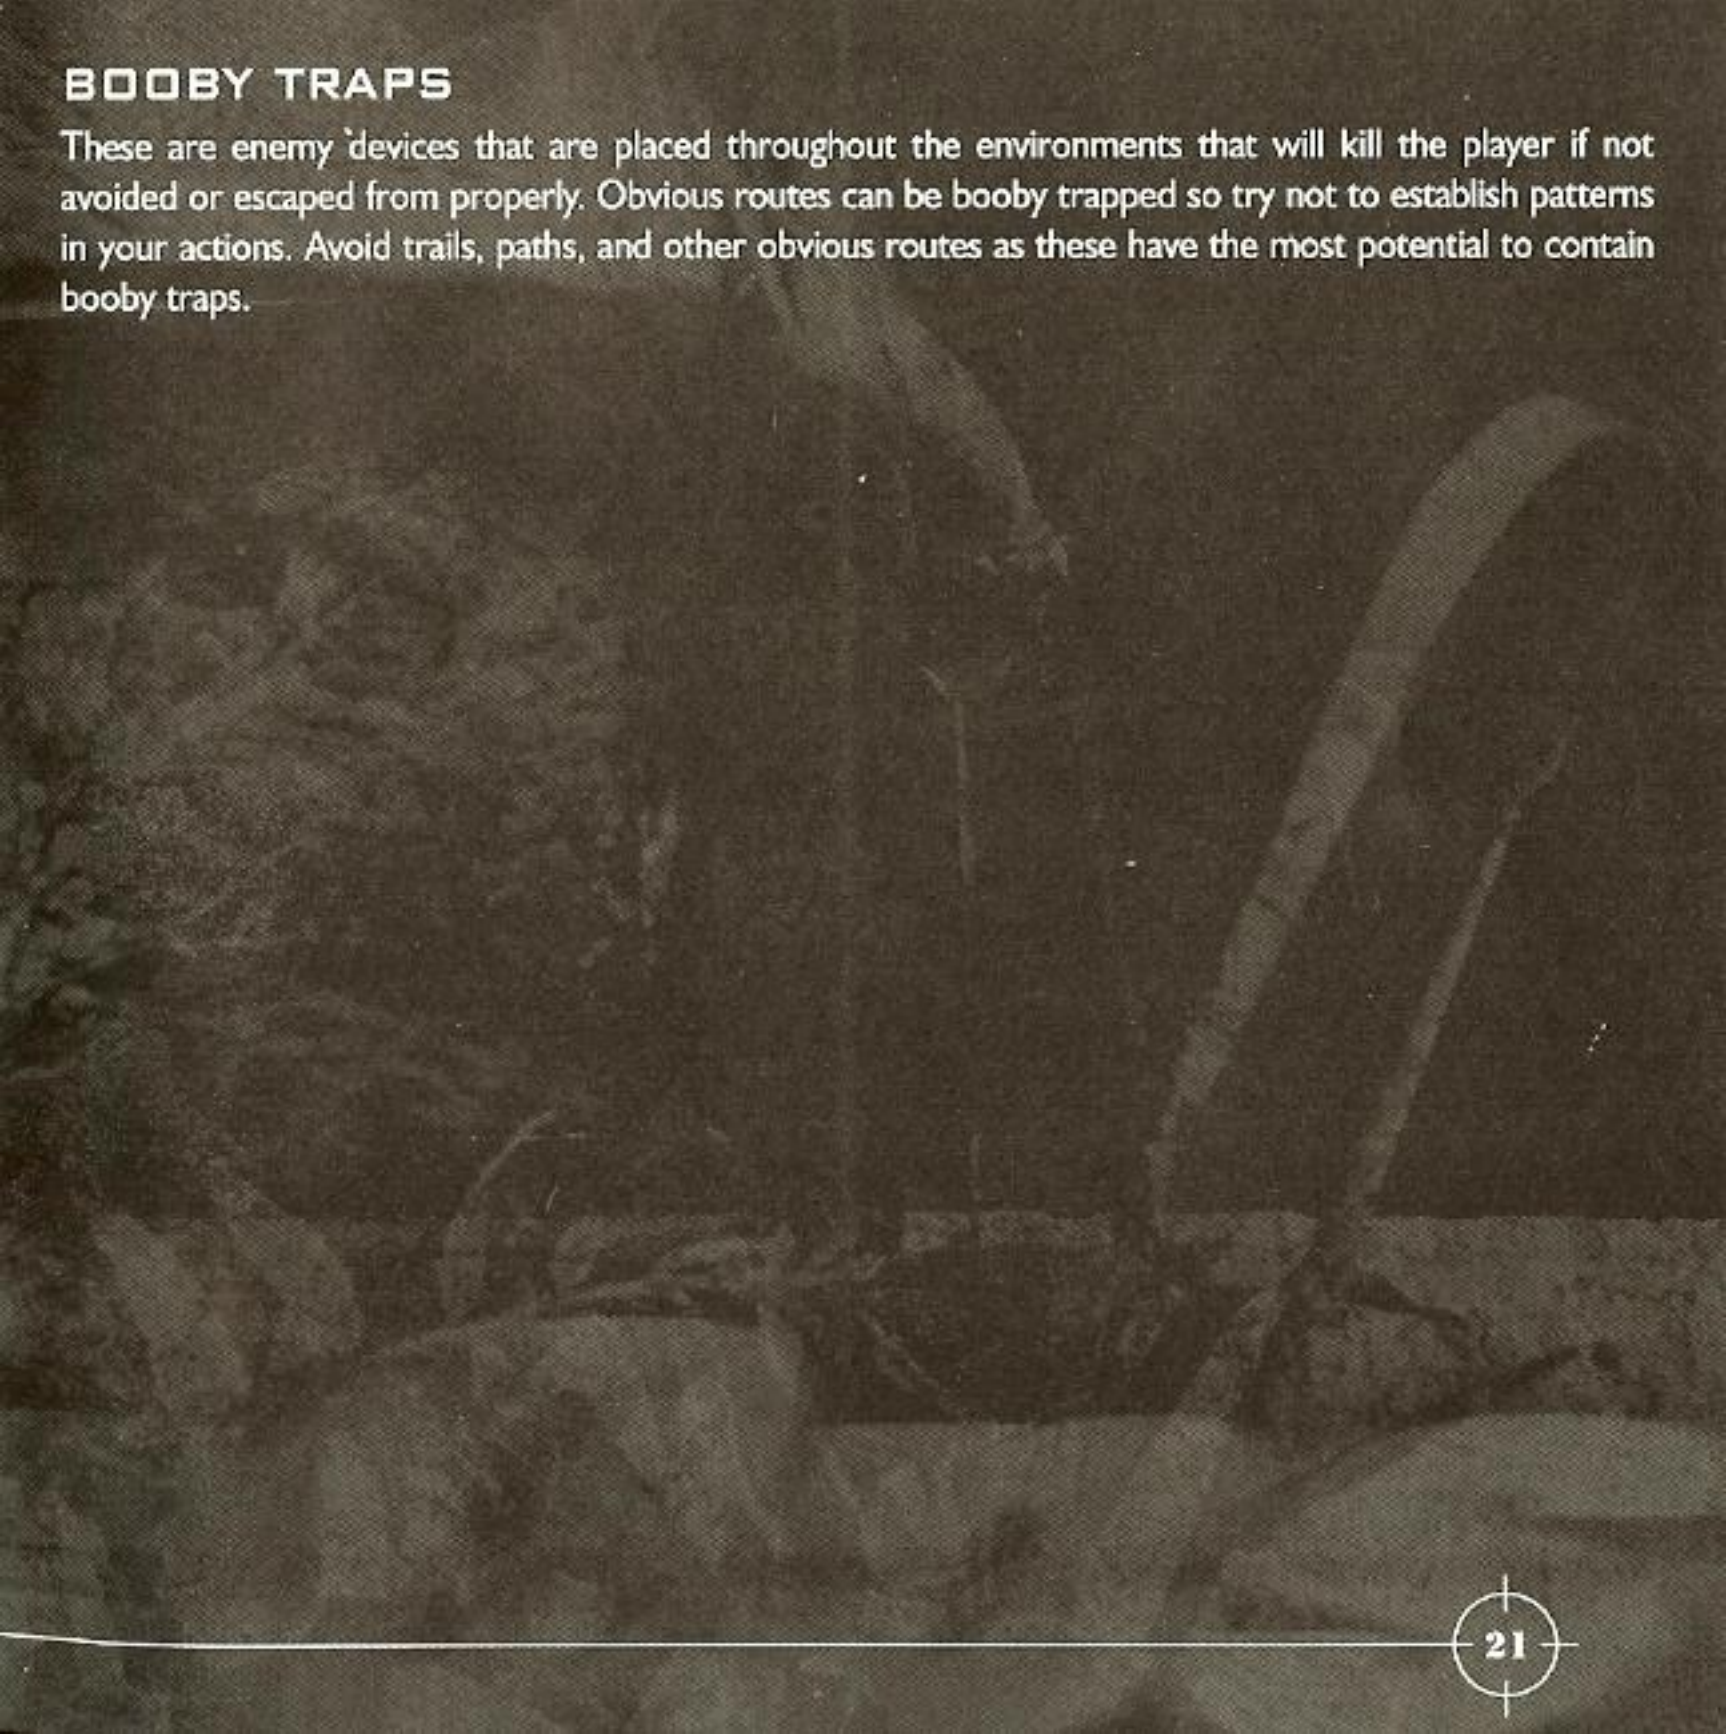

Flak Vest *Increases armor when run over. This can only be picked up if your armor is not already full.*

Satchel Charge *These are highly explosive charges that are set to detonate at user determined time. The Ranger sets this time to a value of 5 – 20 seconds. The L2 button decreases the time, the R2 button increases the time. The triangle button will cancel the satchel charge, returning it to the Ranger's pack.*

Med Kit *Falls into your inventory when you pick it up and increases your health when used. If you use it when your health is already full that's your problem.*

BOOBY TRAPS

These are enemy devices that are placed throughout the environments that will kill the player if not avoided or escaped from properly. Obvious routes can be booby trapped so try not to establish patterns in your actions. Avoid trails, paths, and other obvious routes as these have the most potential to contain booby traps.
